

# DIY FENCE QUOTE CHECKLIST

## DIY FENCING INFORMATION

At JND, we manufacture made-to-order fencing and gates, tailored to suit your space, style and requirements.

Our fencing panels are supplied fully assembled in one piece, making installation quick and easy. Simply attach the panel to your posts or brick pillars.

Each panel is supplied with the appropriate channels or brackets, along with fixing screws.

Posts are available with either a 600mm extension for setting into the ground, or a welded base plate for bolting down to concrete.

Pedestrian gates are supplied ready to install and include hinges, brackets and a D-latch as standard. Optional lock and handle kits are also available for purchase in silver or black.

Sliding driveway gates are supplied with a floor track, door catcher and stopper.

Double swing gates include hinges, brackets, a latch and a drop bolt.

To receive a quotation, please provide the following details:

- Length and height of each fence panel
- Length and height of each gate
- Number of posts required
- Post installation method (set into the ground, bolted to concrete, or fixed to brick pillars)
- Fence style (reference images are welcome)
- Powder-coat colour
- Rough drawings or sketches (hand-drawn is perfectly fine - see example below)
